Six Brain Hacks To Learn Anything Faster

Some students work better at night time, others work better during the day. When students study alone they can plan a study schedule that works best for them and take breaks when they please. When students study in a group, the priority is finding a time that works for everyone, not finding a time that is most effective for studying.

Benefits of Group Study vs Self Study | Oxford Learning

Finding the best way to study is an ongoing process. It isn't something that can be left to the night before the test. You should be constantly improving your study skills to better understand what works (and what doesn't). Learning how to study better helps avoid panic and frustration the next time a big test is coming up.

How to Study Effectively: 12 Secrets For ... - Oxford Learning

Tactile. If you are a tactile learner, you learn by touching and doing. You understand and remember things through physical movement. You are a "hands-on" learner who prefers to touch, move, build, or draw what you learn, and you tend to learn better when some type of physical activity is involved.
