Blues Speak: Playing the Changes - Matt Schofield - Guitar ...

Hello Im Matt Schofield and welcome to this Playing the Changes edition of Blues Speak.br/>>br/>Most of us start soloing over a blues using the minor pentatonic scale over the entire progression. Thankfully that scale gets us up and running quickly. But at some point our ear tells us that theres something missing from our solos. Something that all of the great blues players are doing that were ...

Blues Speak | Playing the Changes: Introduction - Matt ...

Heck then you can change modes on the fly and get away with it! That's fun and expressive lead guitar! I'd say if you really do want to find stuff to play changes over then get into jazz and play over major and dominant seven chords. Those are pentatonics that are turned into a six note scale that have the 7(or b7) and 1 in them.

Chris Standing shows you a neat trick to effortlessly play over jazz chord changes and make you sound fluent. Tons more lessons at www.theinsidetrack.tv

Jazz guitar lesson: How to play easily over chord changes ...

Some players will tend to use, for example, the A pent min. scale notes all through a 12 bar in A. It sort of works, if they're careful (or lucky!) but when playing the changes, they will tend to use the Am pent notes while the tune is on A, change to using the Dm pent notes on D, and the Em pent notes on E.

guitar - What exactly does it mean to "play over the ...

Lydian Sub - In this chord approach, you are playing a maj7#11 from the b7 note of a 7th chord, basically playing the Lydian chord from that key over the V7 chord in the changes. This creates a V13 sound when applied to a dominant 7th chord in a comping situation.

Rhythm Changes For Jazz Guitar (Chords & Soloing)

lead guitar techniques, learning the fretboard, music theory,scales, and the world of playing over chord changes. If you don't keep a practice log you want to start one for sure. A three ring binder with filler paper works best.

ULTIMATE GUITAR SOLOING CHEAT SHEET

Here are 8 concepts every guitarist needs to know to change keys with ease: 1. Identify the key you're in. Whenever you play a song, you have to choose a key to play that song in. This key determines how high or how low the song is. Most popular music tends to use one of a few common keys, like C Major, because they are the easiest to play.

8 Easy Steps for Changing Keys - Guitar Tricks Blog

The A minor to G major is one of the most common chord changes on guitar. In this example, we are playing the simple G major with the low E string, G, B, and top E string. The A minor chord is played with three strings only.
