Suggestopedia is a teaching method developed by the Bulgarian psychotherapist Georgi Lozanov. It is used mostly to learn foreign languages. The theory applied positive suggestion in teaching when it was developed in the 1970s. However, as the method improved, it has focused more on "desuggestive learning" and now is often called "desuggestopedia". ...

### Suggestopedia - Wikipedia

No language teaching method is perfect, but some are better in certain situations. Suggestopedia is best used with students that don't respond well to a traditional, teacher-centered education. When used in combination with other methods, Suggestopedia contributed to a more balanced learning experience that appeals to various types of learners.

**(PDF) Teaching Vocabulary in Turkish Language for ...**

Introduction. Language teaching came into its own as a profession in the last century. Central to this process was the emergence of the concept of methods of language teaching. The method concept in language teaching—the notion of a systematic set of teaching practices based on a particular theory of language and language learning—is a powerful one, and the quest for better methods ...

**Second Language Teaching Methods - CAL Resource Guide Online**

It is used in different fields, but mostly in the field of foreign language learning. Lozanov has claimed that by using this method a teacher's students can learn a language approximately three to five times as quickly as through conventional teaching methods. Suggestopedia has been called a pseudoscience. It strongly depends on the trust that students develop towards the method by simply believing that it works.
